Hahaha I read it this morning! And then you come up with this. I thought it was funny.

Well, given that idiotic editorial in the WSJ, I didn't want you to think I was minimizing your accomplishments!

Ha! For the record, it is not a big deal. I just want consistency 😊
Thanks Michael!

Thanks for your and Karen's comments (btw Karen, sorry that I completely missed that you are Dr. Milians!). I have incorporated them and updated the memo; I still have a couple comments/responses in there for you to look at, but I think Jan can take a look at it whenever you want.

Hi,

I added some comments/edits to the document. I would like to share this with Jan by COB tomorrow just so she can see it not necessarily for review.

Thanks,
Amy

Hey Amy,

I'm thinking this is the level of detail you were looking for, but let me know if you want something more.

Hi Michael,

I've attached the briefing slides that we gave the AA a couple of weeks ago. You will find a slide on eco risks. I've also attached the DRA (done in 2015) and the ID that was completed in 2017.

From my perspective, I was thinking that we would use the new use policy concept in that we likely just need to translate the bullets to memo format. We can point back to the ID and DRA. I'm thinking not much more than a 1 page on this. Having a draft for RD ready this week is our target.
